SANITARY WARE

**GENERAL
CATALOGUE**

Iran's Largest Sanitary Ware Factory

Chini Cord is the largest manufacturer of Ceramic sanitaryware products in Iran and MiddleEast which widely known for especial quality of its products. The company has aimed to demonstrate the importance of elegance both in home and work environment through production and distribution of high quality, modern, beautiful, diverse and high performance products.

Chini Cord owns one of the most modern and equipped Ceramic sanitaryware production plants which has enabled the company to produce verity of products according to customers' preferences in domestic and international markets, and to continue its presence in its target markets due to its up-to-date products. In addition to, Chini Cord aim to make a transformation in customers' life styles by making innovation in products and its beauty.

Chini Cord has always had an active and significant presence in the global Ceramic Sanitaryware industry in pursuit of its enduring and dynamic goals. By attempting to implement this belief and using its strengths, the company has succeeded to be active in markets in more than 10 countries. To continue this presence in the markets, the company has always required to be compliant with global standards in diversity, quality, innovation and the ability to meet consumer needs and for this reason, Chini Cord has always achieved to keep pace with its domestic and international markets.

BRINGING CERAMICS TO LIFE

We use only the finest materials and skilled artisans to create our ceramic wares. This guarantees that each and every suite, washbasin and toilet is crafted with the utmost care to give you a product that you can trust in.

The finest craftsmanship

Fantastically finished to provide a superb and long-lasting exterior, each WC will flush with precision and the best in hygiene function whilst our basins offer generous bowl proportions and ergonomic form. A unique selection of shapes truly set our designs apart from the rest.

Product guarantee

We're confident in the quality and design of our entire ceramic range. Whilst embracing the latest designer influences, functionality is at the core of our products, ensuring a superior performance with every use.

QUALITY & DESIGN

Practicality and function are at the forefront of every great design. Our products are made using experienced cabinetry , ceramic , metal and glassworking expertise , combined with the finest materials. Quality and attention to detail are ensured from production through to installation. It's this dedication and knowledge that ensures we bring you the very best in bathroom design.

Unparalleled design

Our ranges are carefully developed to consider the main functions and requirements of today's busy bathrooms . We continually look to market trends and technological advancements to ensure that we always offer a quality range of bathroom solutions.
