Tabriz Tile, Best For Your Life

Tabriz Tile Industries Company (Tabriz Tile Industrial Group) with more than two decades of continuous dynamic activity is presently well-known as the largest ceramic tile manufacturer of Iran in the northwest of the country. This company with more than 20 years of systematic activity in this industry, utilizes the latest state-of-the-art technologies and the highest quality of raw materials and technical know-how, thus this company has always endeavored to manufacture and supply its products with the highest quality in the world. The commercial brand of Tabriz Tile Industrial Group by applying creativity and innovation, has always tried to have more development and diversification to meet the customers' needs, therefore it will reach a specific particular position in this industry as one of the successful business brands in the continents of Asia and Europe. This group has for the first time utilized its development plan to manufacture the products of floor tiles officially in 2006 via all of the manufacture groups in the country with the cooperation of Keraben Manufacture Group of Spain. Thanks to this official cooperation, the world-class technology and quality are applied at disposal of the domestic and foreign consumers of the tile products. also by reliance on the international experiences, the technical knowledge and the supervision of the directors and experts of Keraben Group, the achievement of the manufactured quality products has been guaranteed.

Tabriz Tile Industrial Group has always endeavored to be successfully present in this field in the domestic and foreign markets in order to satisfy the consumers' satisfacton and meet the buyers' needs of this global industry.

Введение

Тебризская Плитки Индастриз Группа с более чем двадцатилетней непрерывной динамичной деятельностью в настоящее время известна как крупнейший производитель керамической плитки в Иране на северо-западе страны.Эта компания, более 20 лет систематически работающая в этой отрасли, использует новейшие передовые технологии и высочайшее качество сырья и технических ноу-хау, поэтому эта компания всегда стремилась производить и поставлять свою продукцию. с самым высоким качеством в мире. Коммерческий бренд Tabriz Tile Industrial Group, используя креативность и инновации, всегда стремился к большему развитию и диверсификации для удовлетворения потребностей клиентов, поэтому он достигнет особого положения в этой отрасли как один из успешных бизнес брендов в Азии и Континенты Европы.Эта группа впервые применила свой план развития для производства продукции для напольной плитки в 2006 году через все производственные группы в стране при сотрудничестве с Керабен индустриальный группа Испании. Благодаря этому официальному партнерству, технологии и качество мирового уровня применяются в распоряжении отечественных и зарубежных потребителей плитки. Кроме того, опираясь на международный опыт, технические знания и контроль со стороны директоров и экспертов Группы Керабен, было гарантировано достижение качества выпускаемой продукции.Тебризская Плитки Индастриз Группа всегда стремилась успешно присутствовать в этой области на внутреннем и внешнем рынках, чтобы удовлетворять потребности потребителей и удовлетворять потребности покупателей в этой глобальной отрасли.

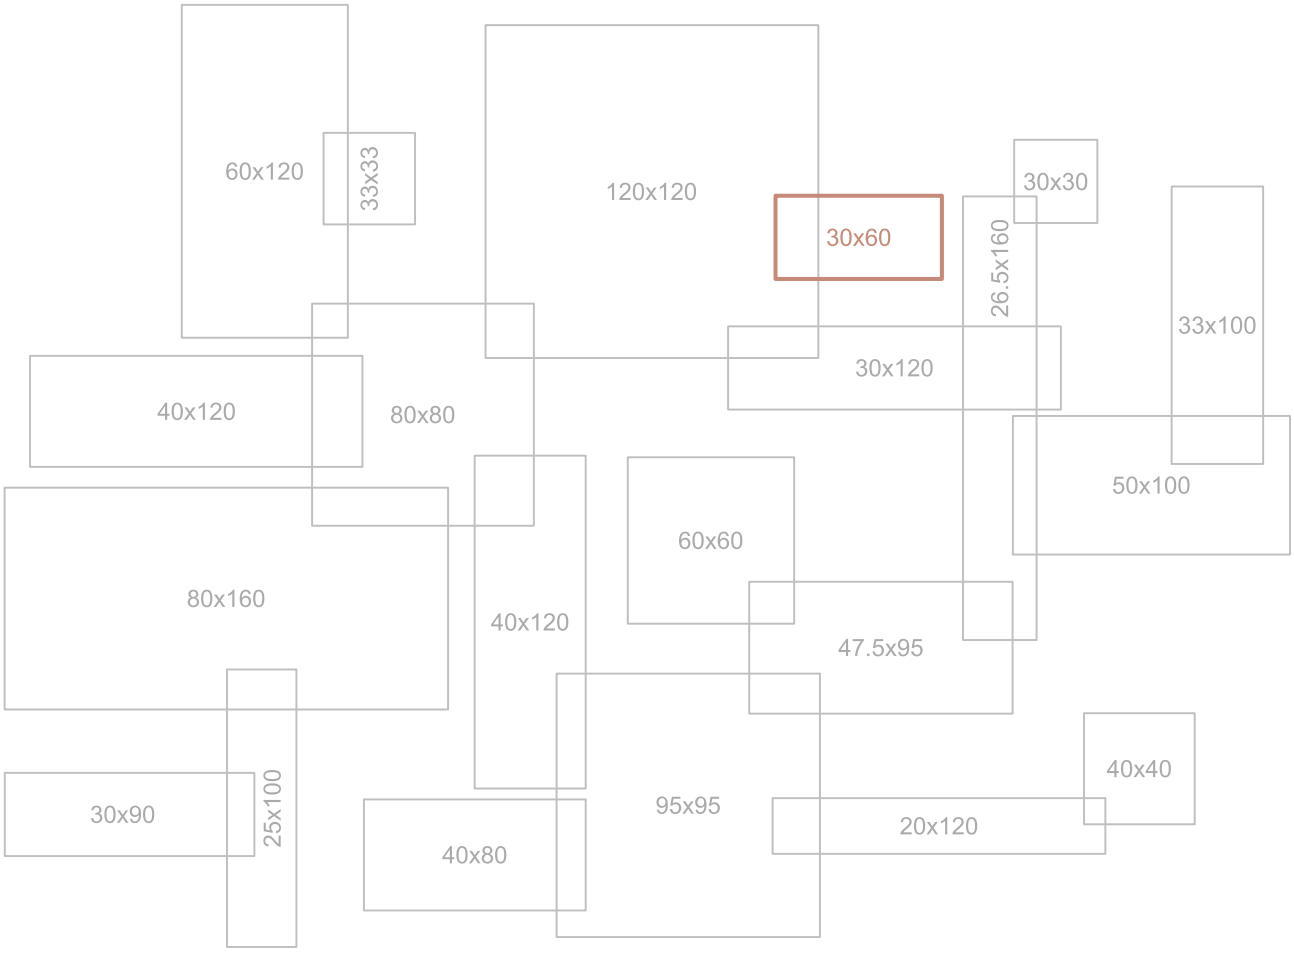

Introducción

Tabriz Azulejos Industrial Grupo con más de dos décadas de actividad dinámica continua es actualmente conocido como el mayor fabricante de baldosas cerámicas de Irán en el noroeste del país. Esta empresa con más de 20 años de actividad sistemática en esta industria, utiliza las últimas tecnologías y la más alta calidad de materias primas y conocimiento técnico, por lo tanto, esta empresa siempre ha intentado fabricar y suministrar sus productos con la más alta calidad en el mundo. La marca comercial de Tabriz Azulejos Industrial Grupo mediante de la creatividad y la innovación, siempre ha tratado de tener un mayor desarrollo y diversificación para satisfacer las necesidades de los clientes, por lo tanto, alcanzará una posición particular específica en esta industria como una de las marcas comerciales exitosas en el continentes de Asia y Europa. Este grupo ha utilizado por primera vez su plan de desarrollo para fabricar los productos de baldosas oficialmente en 2006 a través de todos los grupos de fabricación en el país con la asociación de Keraben Fabricación Grupo de España. Gracias a esta asociación oficial, la tecnología y la calidad de clase mundial se aplican al servicio de los consumidores nacionales y extranjeros de los productos de azulejos. Además, gracias a las experiencias internacionales, el conocimiento técnico y la supervisión de los directores y expertos del Keraben Grupo, se ha garantizado el logro de los productos de calidad fabricados. Tabriz Azulejos Industrial Grupo siempre se ha esforzado por estar presente con éxito en este campo industrial en los mercados nacionales y extranjeros para satisfacer la satisfacción de los consumidores y satisfacer las necesidades de los compradores de esta industria global.

DATA SHEETS

ENGLISH / SPANISH / RUSSIAN

- The technical information written on the product package should be read.
- The product type based on the applied space should be carefully chosen.
- The shade, model and caliber options on the cartons of the products should be the same. One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.

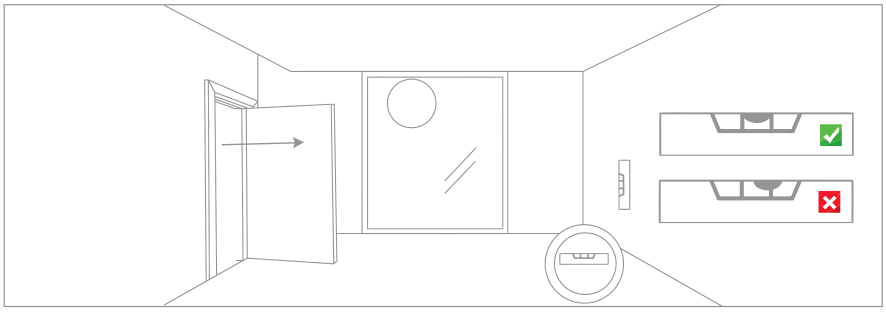

- Se debe leer la información técnica escrita en el paquete del producto.
- El tipo de producto basado en el espacio aplicado debe elegirse cuidadosamente.
- Las opciones de color, modelo y calibre en las cajas de los productos deben ser las mismas. Un consejo importante para el mejor rendimiento de los productos es prestar atención a las instrucciones de instalación correctas y los siguientes pasos.

- Техническая информация написанная на упаковке продукта должна быть прочитана.
- Тип продукта основанный на примененном пространстве должен быть тщательно выбран.
- Варианты оттенка, модели и калибра на коробках продуктов должны быть одинаковыми. Один внимание для повышения эффективности продукции, обратить внимание на правильные инструкции по установке и следующие шаги.

Before installing the product, pay attention to the following items:

Instalación del producto Antes de instalar el producto, preste atención a lo siguiente:

Перед установкой продукта обратите внимание на следующие пункты:

01

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.

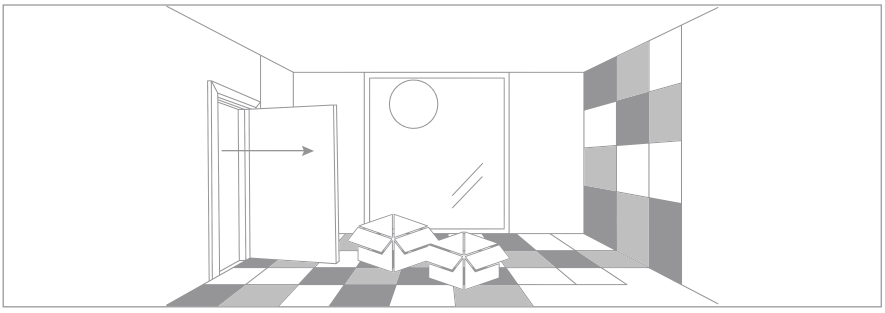

- El lugar de instalación debe ser liso, uniforme y resistente.
- El lugar de instalación debe estar libre de polvo o suciedad.
- Evite instalar el producto en temperaturas muy altas o bajas.
- Las condiciones anteriores son las mismas para los productos de piso y pared.

- Место установки должно быть гладким, ровным и твердым.
- Место установки не должно содержать пыли и грязи.
- Не устанавливайте изделие при очень высоких или низких температурах.
- Вышеуказанные условия одинаковы для напольных и настенных изделий.

SUPPORT

Lugar de instalación

Место установки

02

MATERIAL

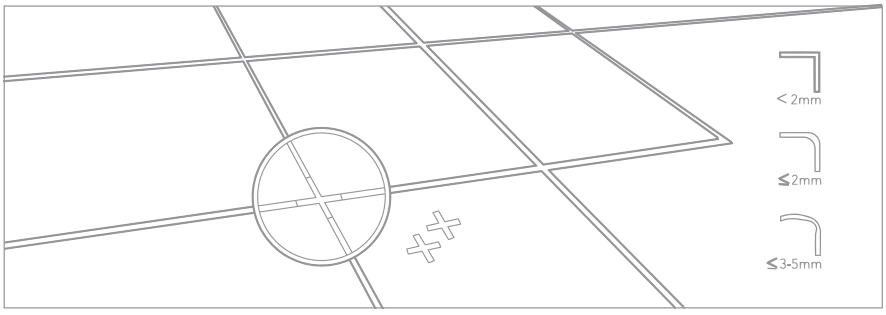

MATERIALES

Материалы

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.

- Se recomienda utilizar las secciones del producto mediante selección aleatoria en el espacio objetivo.
- Si el producto tiene varios tonos o gráficos diferentes, es necesaria la selección e instalación al azar.

- Рекомендуется использовать разделы продукта путем случайного выбора в целевом пространстве.
- Если продукт имеет различные оттенки или графику, необходим случайный выбор и установка.

03

INTERSECTION
OF
TILES

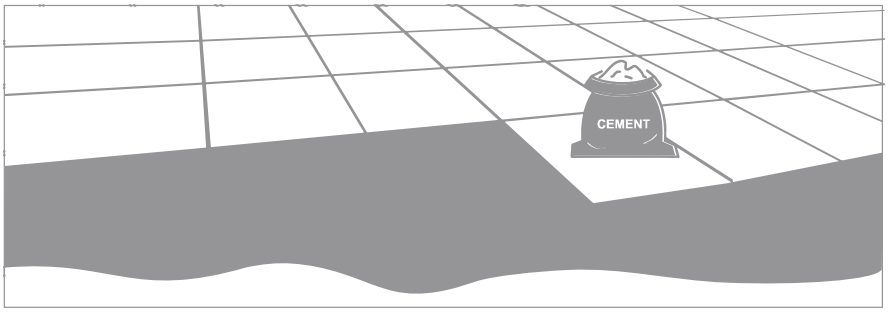

Intersección
de
azulejos

Площадь
пересечения
плитки

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.
- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:
- Rectified products: at least 2 mm
- Non-rectified products: at least 2 mm
- Rastic products: 3 - 5 mm
- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

- Para instalar correctamente los productos, se deben utilizar los revestimientos cruzados o paralelos. Los revestimientos paralelos cruzados se utilizan para una instalación más bella, donde se deben considerar los problemas técnicos importantes, la alineación de los productos y la prevención de cualquier deformación en las superficies de la pared y el piso.
- El uso mínimo de los revestimientos cruzados ofrecidos lo ayudará a hacer que su instalación de cerámica sea más cómoda, fascinante y elegante. Por lo tanto, para evitar cualquier falla, se deben considerar los siguientes elementos:
- Productos rectificados: al menos 2 mm.
- Productos no rectificados: al menos 2 mm.
- Productos rásticos: 3 – 5 mm.
  Observación: Independientemente de los valores escritos, el cumplimiento de las reglas de instalación de cada región (país) es necesario cuando se instalan los productos.

- Для правильной установки продуктов следует использовать поперечные или параллельные накладки. Поперечные параллельные накладки используются для более красивой установки, где следует учитывать важные технические факторы, выравнивание изделий и предотвращение любых деформаций на поверхностях стен и пола.
- Минимальное использование предлагаемых поперечных прокладок поможет вам сделать вашу керамическую установку более комфортной, увлекательной и элегантной. Поэтому, чтобы предотвратить любую ошибку, следует рассмотреть следующие пункты:
- Ректифицированные продукты: не менее 2 мм
- Неректифицированные продукты: не менее 2 мм
- Растовые продукты: 3–5 мм
- Примечание: Независимо от записанных значений, при установке продуктов необходимо соблюдение правил установки для каждого региона (страны).

04

ADHESIVE
AND MORTAR

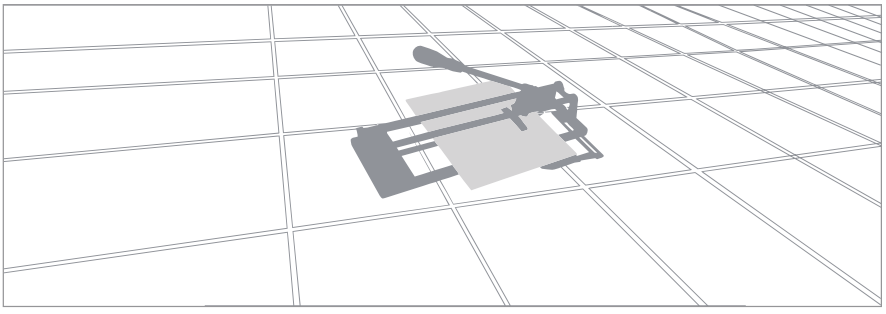

ADHESIVO
Y MORTERO

Клей и раствор

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.

- El uso de morteros de relleno, adhesivos para losetas y otros adhesivos debe ser proporcional al tipo de producto adquirido y estos deben ser utilizables en los espacios interiores-exteriores, superficies de piso-pared y superficies planas y no planas.
- Observación: Las instrucciones del fabricante deben leerse necesariamente al instalar.

- Использование шпаклевочных растворов, плиточных клеев и других клеев должно быть пропорционально типу приобретаемого продукта и их следует использовать во внутренних и наружных пространствах, поверхностях пола и плоских и неплоских поверхностей.
- Примечание: Инструкции производителя должны быть обязательно прочитаны при установке.

05

CUTTING

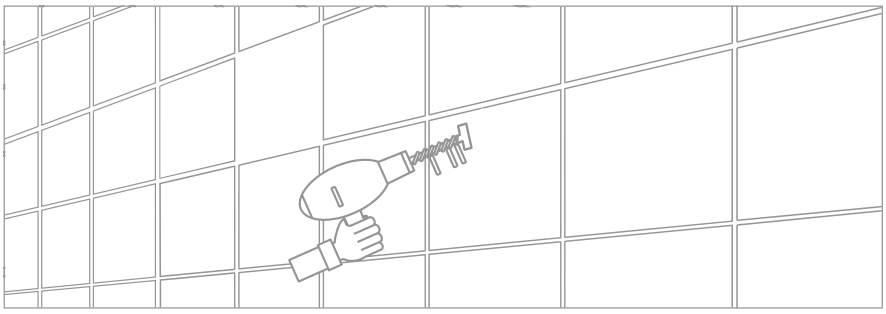

CORTE

Резка

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.

- Para cortar las piezas de cerámica, puede usar un cortador manual.
- Para cortar las piezas más duras, puede usar la cortadora eléctrica con más de 1 caballo de fuerza con agua para enfriar la máquina.

- Для резки керамических кусков вы можете использовать ручной резак.
- Для резки более твердых деталей вы можете использовать электрический резак с водой более 1 лошадиных сил для охлаждения машины.

06

PERFOATION

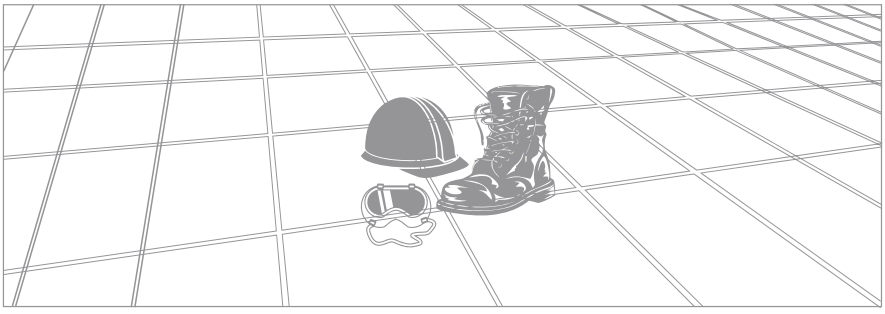

perforación

Перфорация

- Diamond-sized screw drill should be used to perforate the product.

- Se debe usar un taladro de tornillo de diamante para perforar el producto.

- Для перфорации продукта необходимо использовать винтовое сверло алмазного размера.

07

SAFETY AND PREPARATION OF MATERIALS

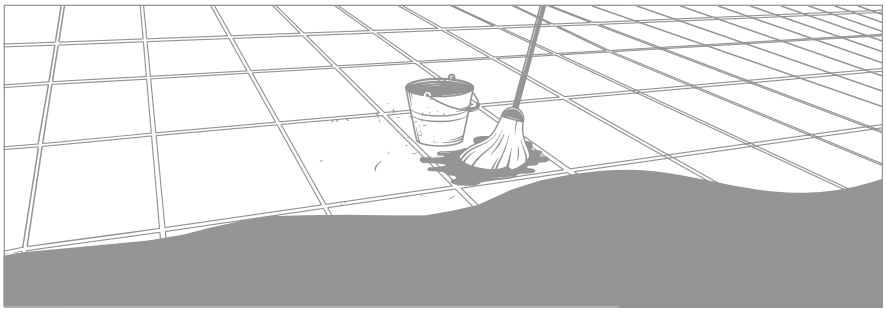

Seguridad y preparación de materiales.

Безопасность и подготовка материалов

- When carrying the products and dislocating the pieces, it is recommended to choose the correct method.
- the safety shoes, gloves, goggles and earplugs must be used, when cutting the products.

- Cuando transporte los productos y disloque las piezas, se recomienda elegir el método correcto.
- Deben usarse zapatos de seguridad, guantes, gafas y tapones para los oídos al cortar los productos.

- При переносе продуктов и вывихе кусков рекомендуется выбирать правильный метод.
- при резке продуктов следует использовать защитную обувь, перчатки, защитные очки и беруши.

08

MAINTENANCE AND CLEANSING

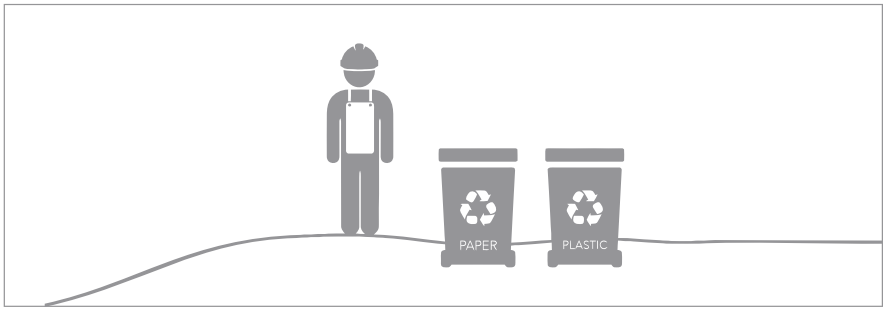

Mantenimiento y limpieza

Уход и чистка

- after installation, the maintenance of the products is imperative.
- in order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products. the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.

- Después de la instalación, el mantenimiento de los productos es imprescindible.
- Para limpiar los residuos de tierra, cemento, polvo de unión y revestimientos cruzados, use inmediatamente el tampón neutro y el detergente después de la instalación.
- Se recomienda el uso de detergentes neutros para la limpieza y el lavado diarios.
- Evite los detergentes abrasivos para limpiar las secciones decorativas de los productos.
- Es necesario el uso de detergentes neutros y la certeza para limpiar los terceros productos horneados con los diferentes recubrimientos de plomo, oro, plata, etc.

- После установки, обслуживание продуктов имеет важное значение (обязательно).
- Для очистки от остатков почвы, цемента, связующего порошка и поперечных прокладок немедленно используйте нейтральный буфер и моющее средство после установки.
- Рекомендуется использовать нейтральные моющие средства для ежедневной уборки и стирки.
- Избегайте абразивных моющих средств для очистки декоративных участков изделий. Необходимо использование нейтральных моющих средств и уверенности для очистки третьих выпеченных изделий с различными покрытиями из свинца, золота, серебра итд

MANAGEMENT OF PACKAGING WASTAGE

Manejo de residuos de envases

Обработка отходов упаковки

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.

- Cualquier desperdicio generado (cartón y plástico) debe ser segregado en lugares apropiados para reciclaje.

- Любые образовавшиеся отходы (картонные и пластиковые) следует сортировать в соответствующих местах для переработки.

DATA SHEET

TABRIZ TILE GROUP GREEN

Products commercialized by TABRIZ GROUP meet all the norms required by global manufactured goods, imposed by the global law concerning environmental issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

- Recycled material used in production.
- Under the maximum authorized level for pollutant gas emissions.
- Cardboard and wood packing managed by SIG from ECOEMBES.
- Waste management handled through an authorized company.
- Recycling of industrial sewage water.

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process and each technology of the complex activity of the Tabriz Group sites are studied in order to reduce the environmental impact, by saving, recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Tabriz Group is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

- Reused Non-Fired Material
- Recycling of Fired Material
- Water Recycling From The Production Process
- Low Gas Emissions to Atmosphere
- Energy Saving
- Packing From 100% Recycled Materials
- Ceramic Products Sustain Ability
- FAO Pallets

THE ENVIRONMENT CERTIFICATION

Tabriz Group have obtained the most prestigious international environmental certifications. Agencies and control bodies have officially recognized the work done by the company for the safeguarding of the earth's natural resources. These certifications are proof of the high standards attained by Tabriz Group, a company which is a forerunner in terms of sustainable development. These are a clear proof of how it is possible to reconcile quality, industrial innovation and design with a serious policy for environmental safeguard.

ISO 9001	2015	Quality Management
ISO 14001	2015	System Management - Environment
ISO 45001	2018	System Management - Health and Safety Environment

CE Product Standard Certification
Confirmed by European Union
from CELEB in italy.

INHABIT THE PRESENT LIVE THE FUTURE

Tabriz Group create tile and ceramic collections to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom.

The same beauty and marvelous harmony the we dream for the world around us.

For this , Tabriz Group create and protects, by reducing to its minimum the environmental impact coming from its activity , through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes , as the obtained environmental certificates demonstrate.

We want to contribute for a better world only what is really eco-sustainable can be considered as development with future vision.

This is our daily commitment and our social responsibility.

SUSTAINABLE DEVELOPMENT	Commitments
Customer Services and Relationships with other Stakeholders.	Satisfaction of customers and other interested parties, seeking the internationalization of their brands and products in the various markets.
Continuous Improvement	Innovation and product development anticipating the expectations of its customers and ensuring the sustainability of the products throughout their life cycle.
Efficiency	Implementation of a culture of operational excellence that maximizes the efficiency of processes.
Social Goals	Involvement and motivation of its employees, since they are an important asset for the success of the company.
Environmental Protection	Protection of the environment, including pollution prevention, contributing to the minimization of environmental impacts and opting wherever possible and economically viable by the best available technologies.
Health, Safety and Well-Being	Prevention and minimization of risk to the health and safety of employees in order to contribute to their integrity and quality of life.
Relationships with Society	Compliance with legal and other requirements that the organization subscribes to its products and services activities.

best for your life
